Retractable Landing & Taxi Lights

description

Controllable Landing Lights

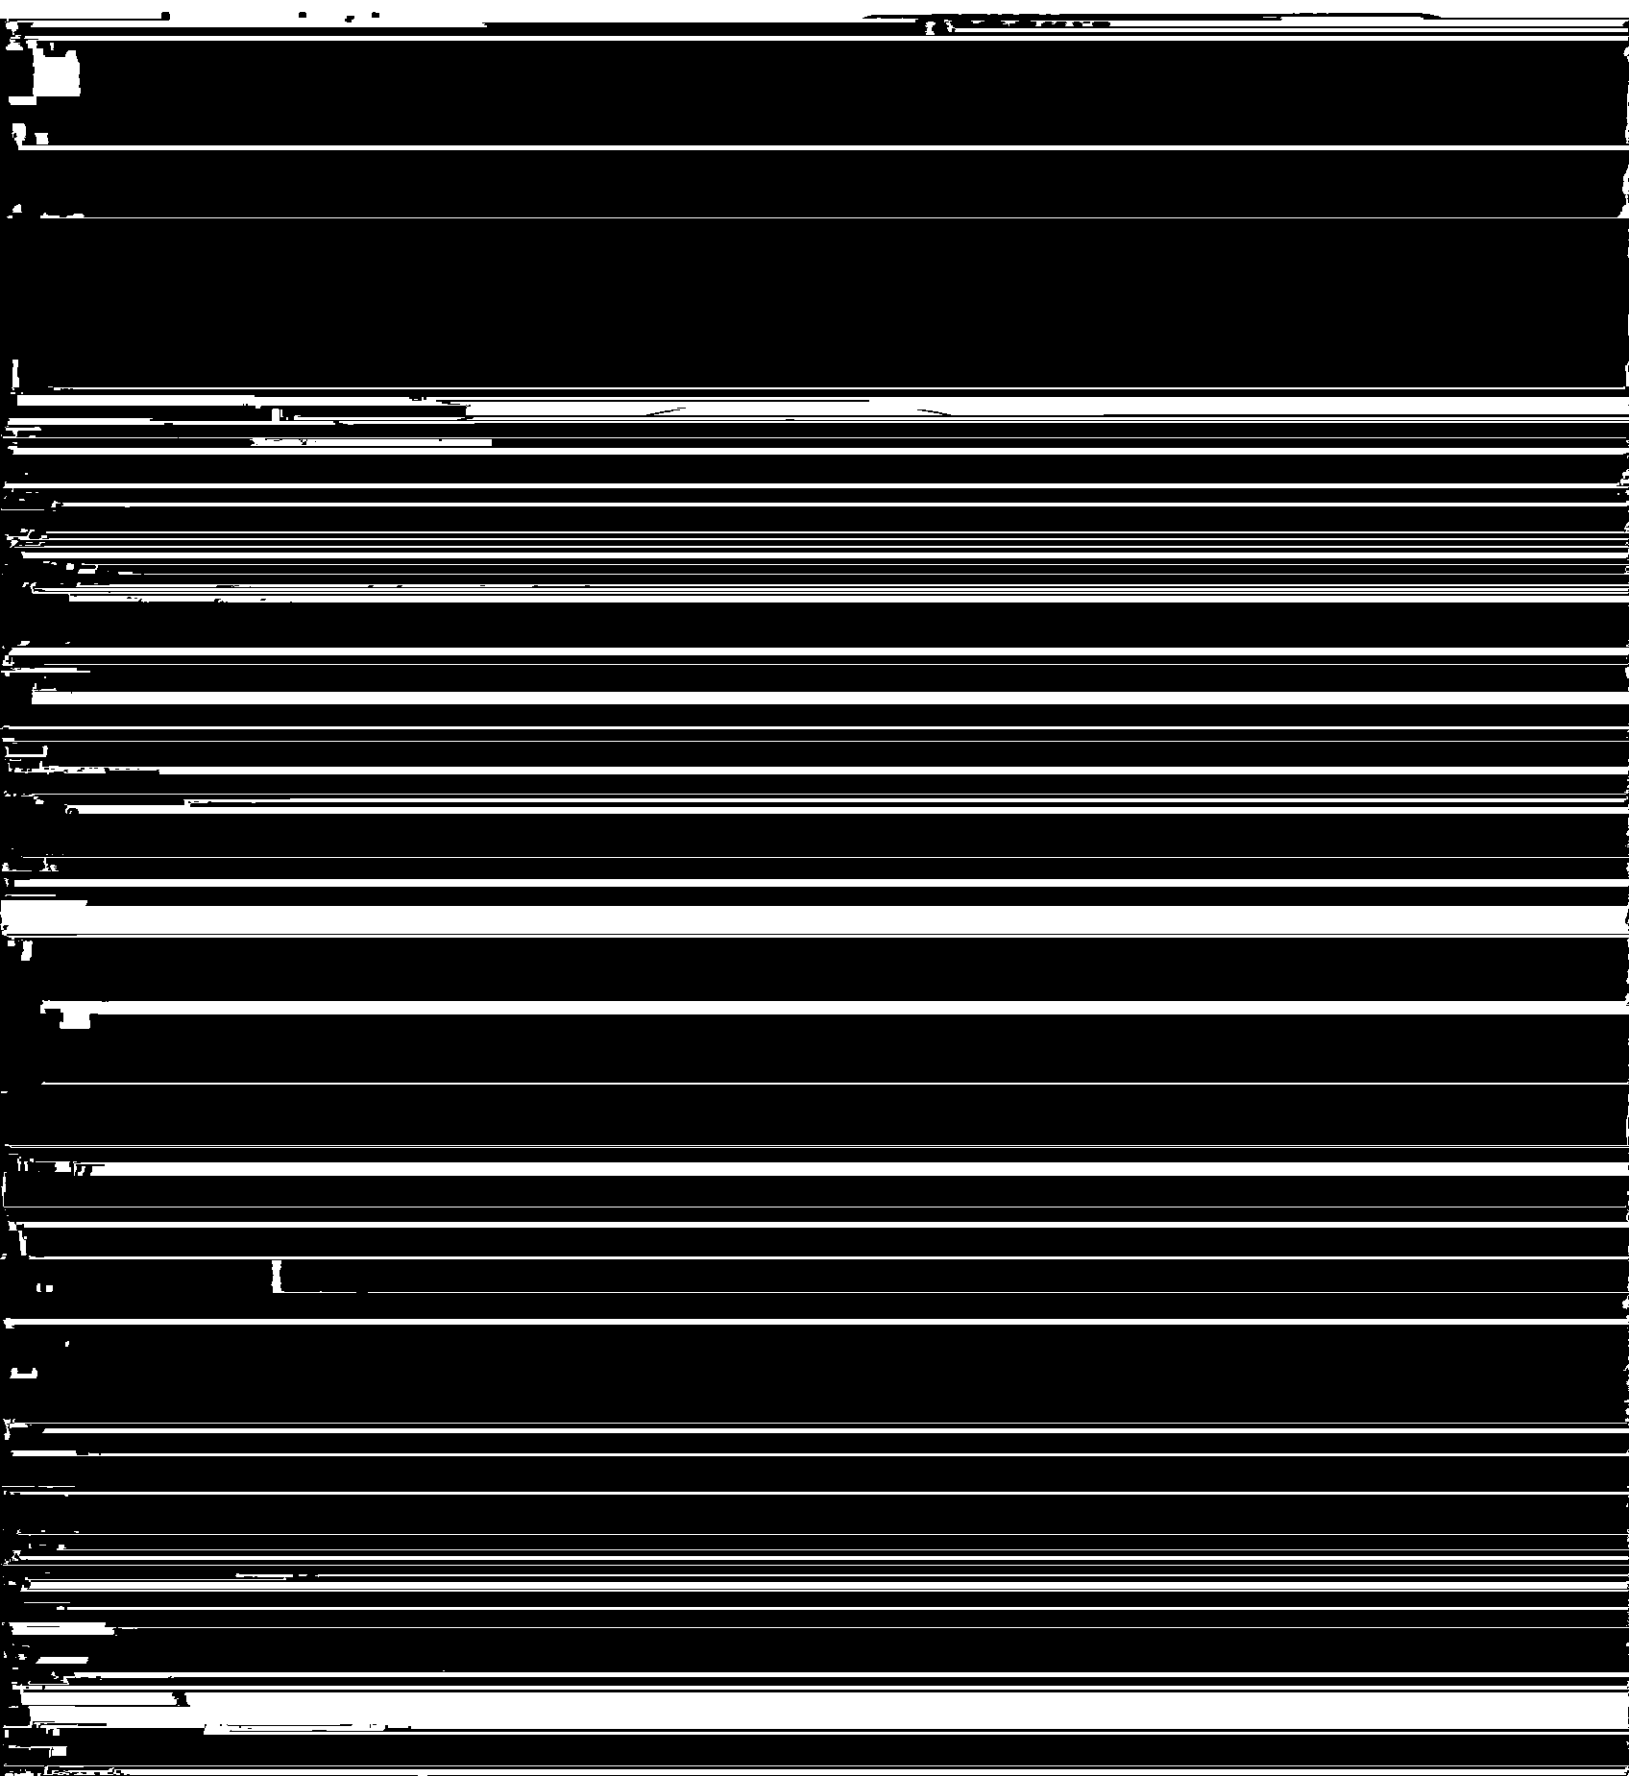

These are controlled landing lights designed for

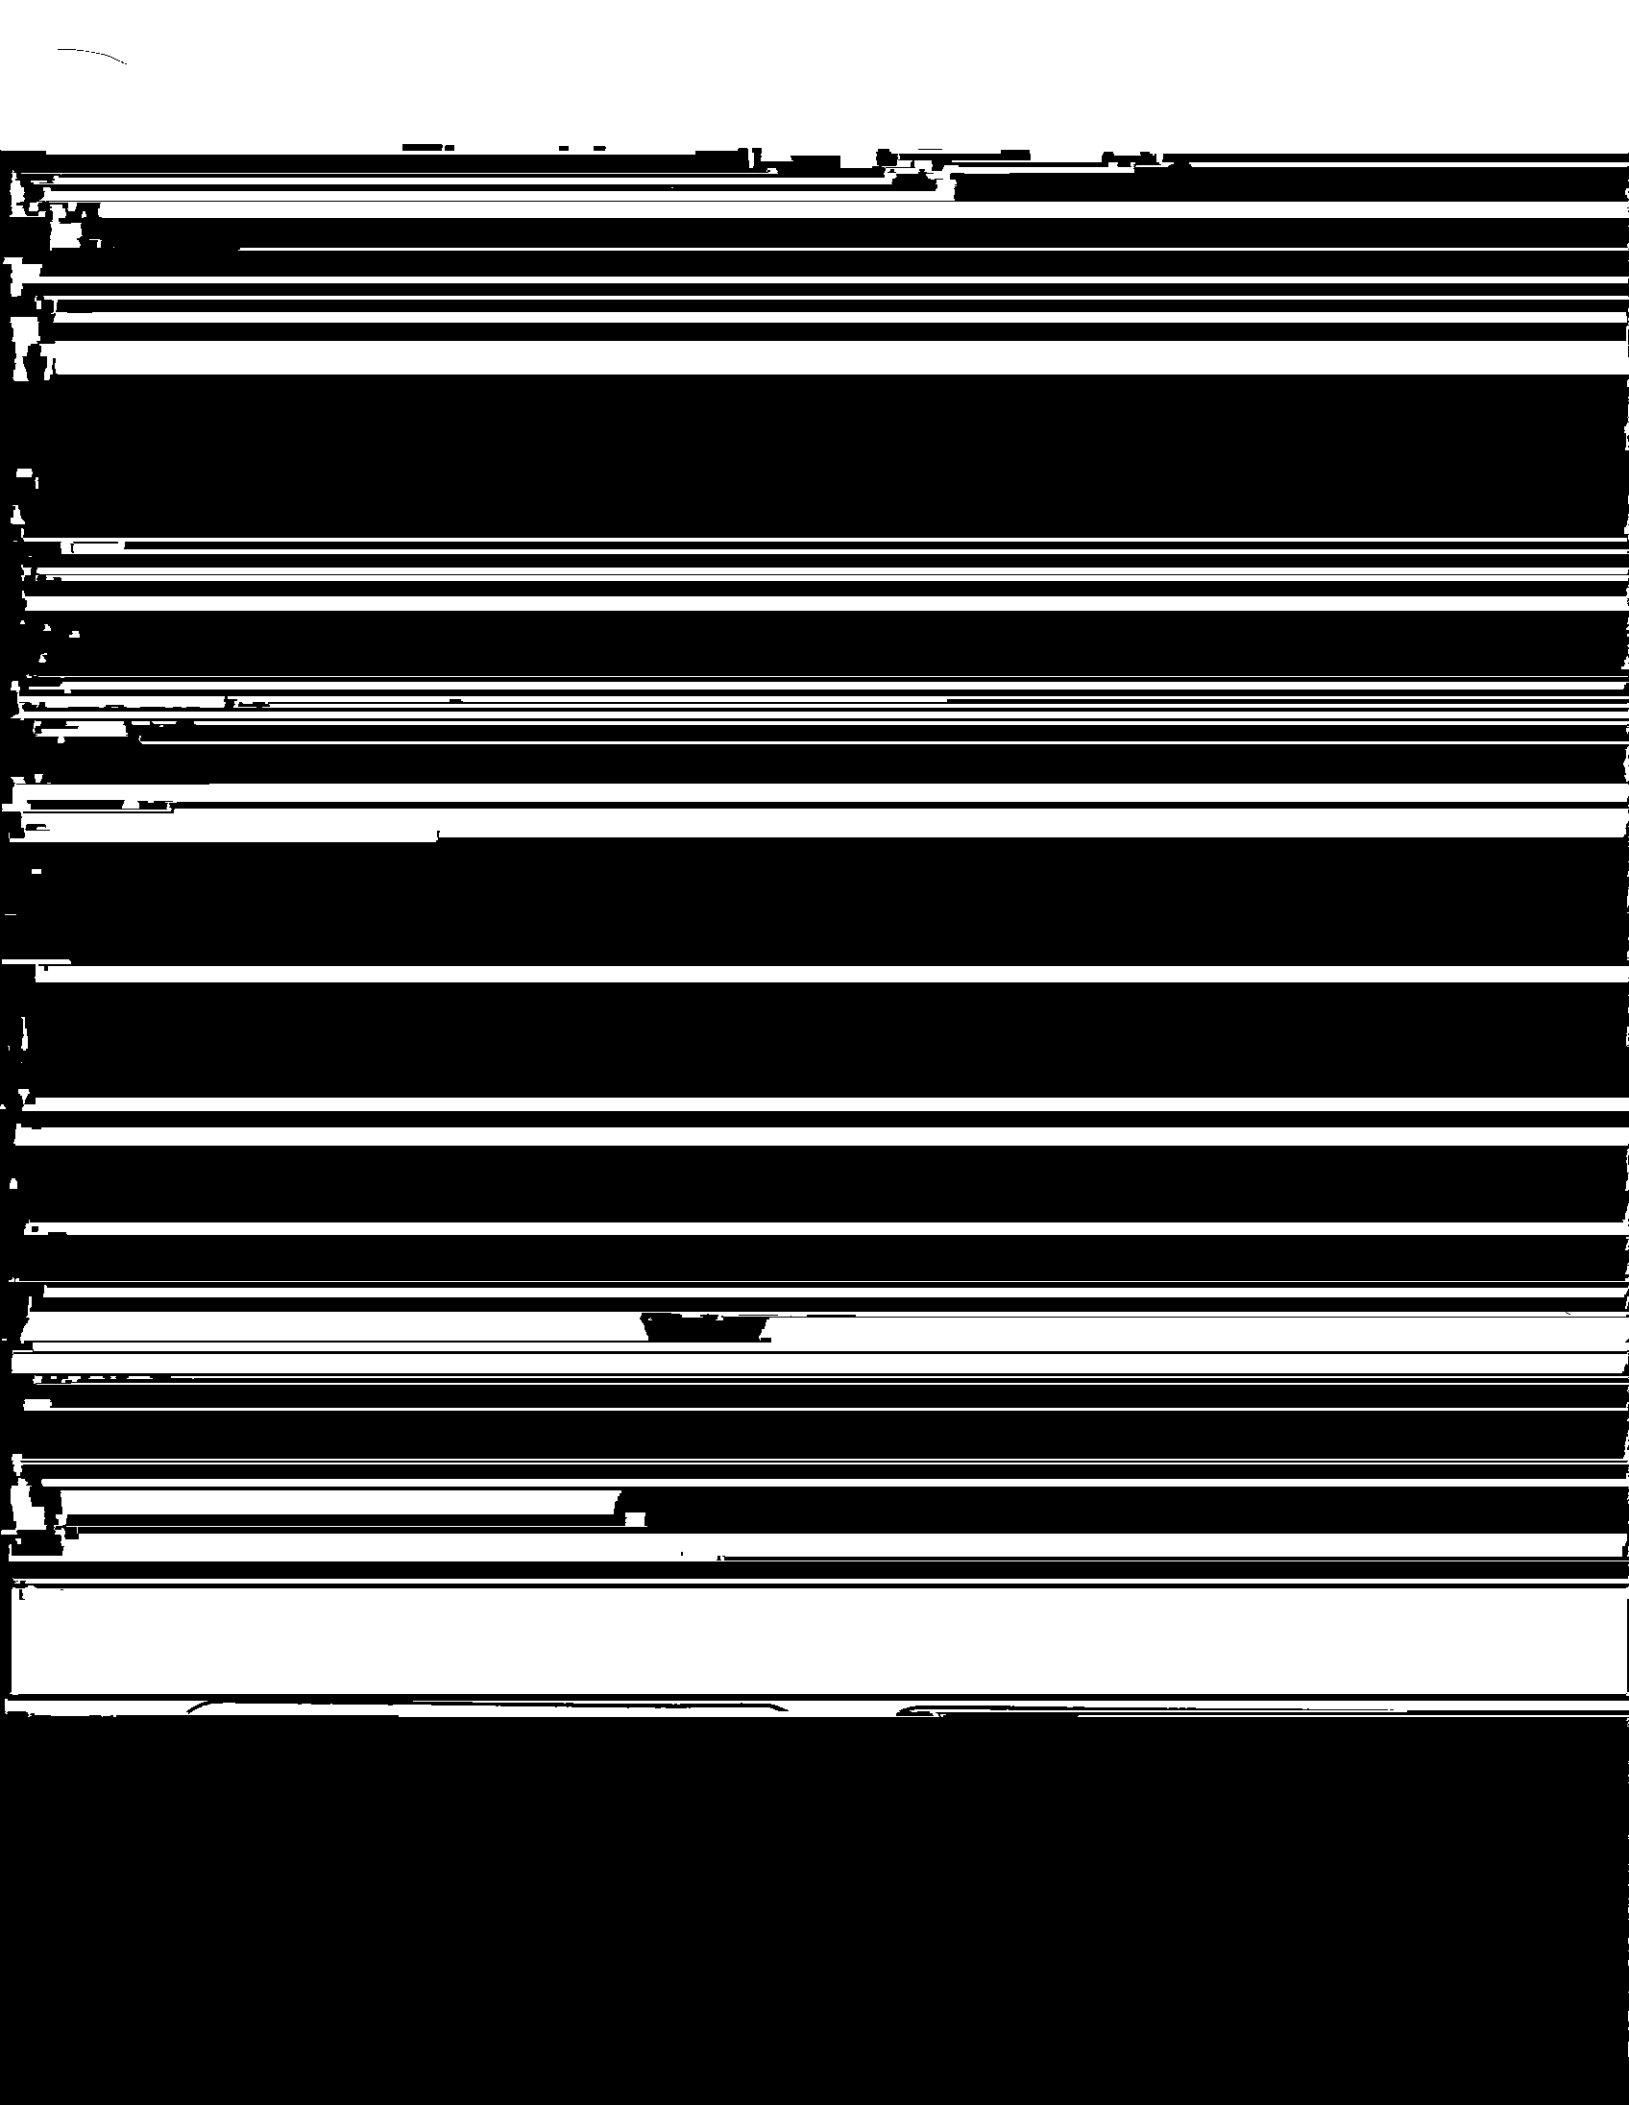

Retractable Lick Bowls

A black and white photograph of a large, multi-story building with a prominent central tower and many windows, likely a government or institutional structure. The building is viewed from a low angle, emphasizing its height. The sky is clear and light-colored. The building's facade is light-colored with numerous rectangular windows. A central section rises slightly above the rest of the building, forming a tower. The overall style is that of a mid-20th-century architectural photograph.
